

Pennsylvania Allergy & Asthma Association

2022 PAAA Annual Meeting Enduring Materials CME Information

Purpose and Target Audience

Allergists, Immunologists, Pulmonologists, Family Practitioners, Certified Registered Nurse Practitioner and Physician Assistants with the most current and up-to-date treatments and scientific information regarding allergy, asthma, and immunology.

Program Outcomes

At the conclusion of this learning activity, participants should be able to:

- Apply new knowledge in a variety of topics to improve identification and screening practices to help them choose appropriate biologics and appropriate therapies for their patients.
- Apply advancements in the scientific basis of disease and how these translate to novel therapies.

For Physicians:

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education

(ACCME) through the joint providership of the Pennsylvania Medical Society and Pennsylvania Allergy and Asthma Association. The Pennsylvania Medical Society is accredited by the ACCME to provide continuing medical education for physicians.

The Pennsylvania Medical Society designates these enduring materials for a maximum of *11.25 AMA PRA Category 1 Credit(s)[™]*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Faculty and all others who have the ability to control the content of continuing medical education activities sponsored by Pennsylvania Medical Society are expected to disclose to the audience whether they do or do not have any real or apparent conflict(s) of interest or other relationships related to the content of their presentation(s).

CME Disclosures

Financial relationships reported by members of the Pennsylvania Allergy and Asthma Association's Planning Committee are provided below. During all phases of planning for the Annual Meeting areas of conflict were managed through a peer-review process and/or through individual recusal when appropriate.

The Planning Committee has reviewed all presenter disclosure reports, identified potential conflicts of Interest, and implemented strategies to manage those areas of conflict, where they exist. All conflict of interests have been mitigated.
